

Experience **CONNECT+**

A secure, all-in-one connectivity solution
purpose-built for your business

CONNECT+

BUSINESS INTERNET SOLUTIONS BY UNITI

When you're running a business, from your first client of the day to your last transaction, your days are nonstop.

CONNECT+ can keep your business running and productive with exceptional Wi-Fi coverage, robust security, built-in network resiliency, and four distinct Wi-Fi networks to provide safe and secure connectivity for business systems, staff, and guests.

A simple, purpose-built solution to enhance **security, business productivity, and customer experience:**

Protect Your Business

Gain peace of mind knowing your data (including POS) and business systems are isolated, secure and protected

Internet Back-Up

Stay connected and keep business critical devices online even during an outage, avoiding costly downtime or lost sales

Delight Customers & Guests

Keep customers coming back and build loyalty with a branded customer Wi-Fi portal

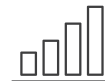

Boost Productivity

Raise productivity and easily manage staff access with individual passwords and staff network content controls

Manage With Ease

Monitor and manage all capabilities from anywhere — even with limited IT expertise — with the intuitive CONNECT+ mobile app

Grow Revenue & Loyalty

Gain valuable guest insights and contact information for marketing purposes from the guest Wi-Fi portal

SIMPLE. SMART. SECURE.

With **CONNECT+**, built-in networks enhance security for devices, data, customers, and staff.

CONNECT+

In today's digital age, small businesses face increasing cybersecurity threats that can jeopardize their operations and customer trust. In fact, 73%¹ of small businesses experienced a cyberattack last year. **CONNECT+** is designed to address these challenges by providing robust security features that keep your business safe and secure.

With **CONNECT+**, you can focus on growing your business while we take care of your network security needs:

Network Isolation

Ensure that your business's critical functions are protected by isolating different networks, making it difficult for unauthorized users to access sensitive systems and data.

Always Up to Date

Stay ahead of threats with automatic updates that provide real-time protection against intrusions, ransomware, and viruses.

Protect Credit Card Data

Help maintain Payment Card Industry Data Security Standards (PCI DSS) compliance, safeguarding your point-of-sale devices and customer data from cyberattacks.

Separate and Secure Staff Network

Provide connectivity for employees' devices without compromising the security and performance of your primary business functions; and easily manage staff turnover with personalized password access to the staff network.

Content Filtering

Protect your staff and patrons from inappropriate content with built-in content filtering features, ensuring a safe and professional environment

CONNECT+ App

Monitor and manage your network security from anywhere with the **CONNECT+** app, giving you peace of mind and control over your business's cybersecurity.

Get **CONNECT+** from Uniti!

With **CONNECT+**, your business can enjoy a fully integrated, cost-effective solution that features enhanced security, content blocking, business-built networks, and internet back-up.
